

**Bishop Creek Water Association
Meeting Summary
October 4th, 2016**

I. Opening and Introductions

The BCWA meeting was opened at 7:04 p.m. Trustees in attendance included: Merry Armstrong, Rock Baker, Henry Means and Greg Loveland. Trustee Gene Coufal was absent. Watermaster Chas Coufal and Bert Almond were also in attendance.

II. August 2nd and September 6th, 2016 Meeting Summaries

The summaries of the August 2nd and September 6th, 2016 Monthly Meetings were reviewed and approved as written.

III. Financial Reports

The Financial Reports for August and September 2016 were reviewed and approved.

IV. Bishop Creek Flow and Storage Report

Bert Almond reported that Bishop Creek is currently flowing 50 cfs below Plant 6. Southern California Edison should be able to maintain similar flows throughout the winter with flows ranging from 50-55 cfs.

V. Old Business

- a) Collection of Past Dues: The BCWA Board is working with DWP to compile APN numbers with mailing addresses.
- b) High Groundwater issues: Bob Harrington made an inquiry to DWR for a due date on the report with their findings. He has not received an answer.
- c) Ditch/Diversion Box Repairs:
 - i. Reinhackle Ditch Issue: Resolution is still pending and any construction will be scheduled during the low flow winter months.
 - ii. Plans for Diversion Structure Repair / Replacement: No Report

VI. Water and Arbitration Committee Report

No formal meeting:

Rock Baker reported on the West Bishop groundwater issue. The high water on Orinda has been eliminated and Carrol Lane has seen improvement with no water making it to the street. The lining of 5 ponds made a significant difference. Lining material from the A-Drain has proved to be most effective. Todd Vogel volunteered to assist with lining ponds on his street.

A letter will sent out to residents of Highland and Sunset to encourage them to line ponds. A map of the impacted houses will be included with the letter.

Rock Baker thanked Ron Lawrence for his work collecting data on Carol Lane and for providing a chart for the membership.

VII. Watermaster Report

Chas reported that he received 63 calls, 24 text messages and 14 calls from DWP Aqueduct and Reservoir Keepers.

Chas also reported that he had to focus in on the McLaren area throughout the month, readjusting boards and cleaning leaves out of ditches. He encouraged the members to help keep the system clean of leaves. Chas will be looking to see what structures need improvement.

VIII. New Business

Phil Anaya passed along the contact info for the California Rural Water Association's Director of Recourse Development, Dustin Hardwick; 1-800-833-0322, 1-916-553-4900. The CRWA has grant money available to owners of domestic wells that dried up due to the drought.

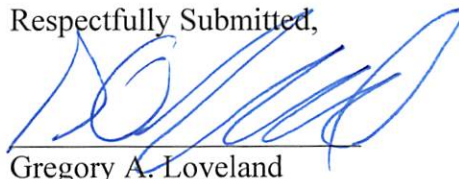

IX. Next Meeting

The next meeting of the Bishop Creek Water Association will be on Tuesday, November 1st, 2016 at 7 pm at the Los Angeles Department and Water Power Office Building at 300 Mandich St.

X. Adjournment

The meeting was adjourned at 7:37 p.m.

Respectfully Submitted,

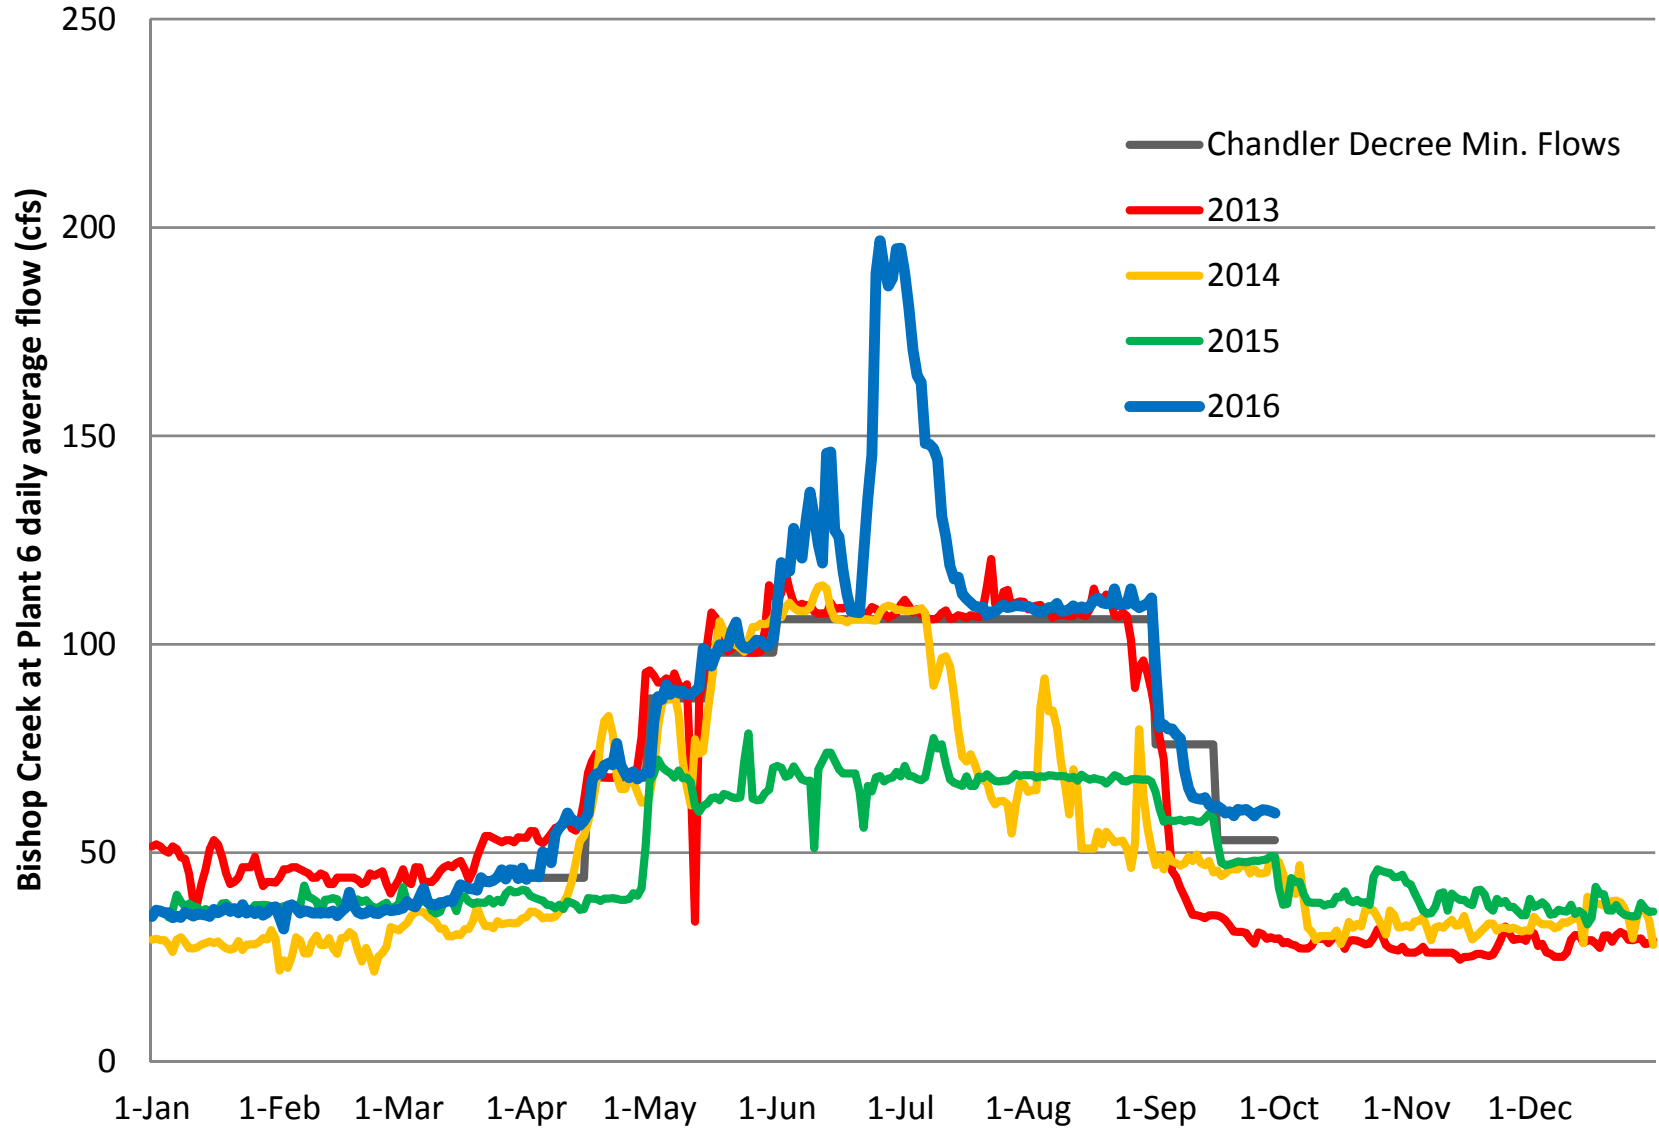

Gregory A. Loveland
Secretary
Bishop Creek Water Association
