Bishop Creek Water Association,
P.O. Box 1273
Bishop CA 93515-1273

Dear Sirs,

We have been assessed an annual fee of \$40.00 by you for water flowing in our backyard ditch/pond. However, for almost half of last year, we had no water in our ditch due to a culvert issue at Laurel Street. We called the Watermaster as well as Board Members numerous times to try to get water in our ditch. In order to keep tadpoles alive in our pond, we had to run treated tap water into it for lengthy periods of time which is totally wasteful of this resource. We have always fully maintained the section of ditch on our property and expect that Inyo County or the Bishop Creek Water Association will maintain the culverts so we can get the water we are entitled to.

We will pay the full amount of our assessment under protest. We hope that no further lengthy shutdowns of our ditch will occur due to maintenance issues which should be foreseen.

Yours sincerely,

Brian and Sandy Norris
