Bishop Creek Water Association
Monthly Board Meeting Agenda
November 10, 2026
7:00 pm

1. Opening and Introduction
2. Acceptance of October 13, 2026, Monthly Board Meeting Summary
3. Approval of the September and October 2026 Financial Reports
4. Bishop Creek Precipitation, Flow, and Storage Report
5. Old Business
    a. Street Culverts:
        i. 3028 Laurel Rd Culvert
        ii. Meeting with ICRD (street culvert survey attached)
    b. Leakage from Waterson Area Ditch onto LADWP
    c. Ditch Relocation at NW corner of Carol Ln. (parcel no 011-510-27)
    d. Collection of Past Due Assessments (table attached)
    e. Water Rights filing
    f. Ditch Diversion Box Repair/Rebuild Project
    g. Use of ditch water by members not in good standing
    h. Bishop Tribe BCWA Membership?
6. Watermaster Report
7. New Business
    a. Other (by BCWA members in good standing)
9. Next Monthly Board Meetings: December 15, 2026, at 7:00 pm at GLCC
10. Adjournment

Bishop Creek Water Association
Monthly Board Meeting Summary
October 13th, 2026
7:00 pm

1. **Opening and Introduction**
   BWCA Monthly Board meeting was called to order at 7:02pm. Trustees in attendance: Gene Coufal, Mark Frumkin, Don Kunze and Chad Lamacchia (for Eric Tillemans). Trustee Merry Armstrong was absent. Watermaster Indigo Ganoung was also present.

2. **Acceptance of September 8th, 2026 Monthly Board Meeting Summary**
   The September 8th, 2026 Monthly Board Meeting Summary was accepted as written.

3. **Approval of August and September 2026 Financial Reports**
   The August financial report was unanimously approved while the September report was tabled until it could be finalized for next month's meeting.

4. **Snowpack, Precipitation and Bishop Creek Flow and Storage Report**
   Chad reported on current flows in Bishop Creek as being consistently around 55-60cfs and that SCE currently has construction active up the canyon.

5. **Old Business**
   a. Street Culverts
      i. 3028 Laurel Rd Culvert: this culvert blockage issue will be the BCWA's priority at the upcoming meeting with the ICRD.
      ii. Annual Culvert Survey: Indigo completed the survey and will be provided to the Inyo County Road Department at the upcoming meeting with the ICRD per the street culvert MOU.
   b. Leakage from Watterson Area Ditch onto LADWP: DWP is looking into this issue.
   c. Ditch Relocation at NW corner of Carol Ln. (Parcel no 011-510-27): Please see attachments in packet. Erik Rose to install the BCWA headwall in the relocated ditch on his property.
   d. Collection of Past Dues: A letter was sent out to 22 accounts with the highest unpaid assessment balances. These parties have been requested to bring their assessments up to date by the first of November.
   e. Water Rights Filing: Have not received any communication from the State Department of Water Rights.
   f. Ditch Diversion Box Repair/Rebuild Project: On hold
   g. Use of ditch water by members not in good standing: No update
   h. Bishop Tribe BCWA Membership: No Update

6. **Watermaster Report**
   Received 50 calls and 65 texts

   Watermaster reported that there were complaints of low flows in Park West development, DWP was able to get more water into the 4X ditch to fix the problem. The control gate in a backyard at the top end of the Vista Ditch is just loose boards. Having a lockable diversion at that location would be a big help.

7. **New Business**
   a. Gene reported on a possible issue with ditch repair work at 2714 Audry Lane. He will meet with the concerned downstream neighbor. Don will join.
   b. Gene reported that the 2026version of the Article's and Bylaws is complete and will be posted on the BCWA website.
   c. In recognition of the passing of Matt Durkee's wife, Becky, Don took Matt Durkee out to lunch and presented him with flowers and condolences from the BCWA.

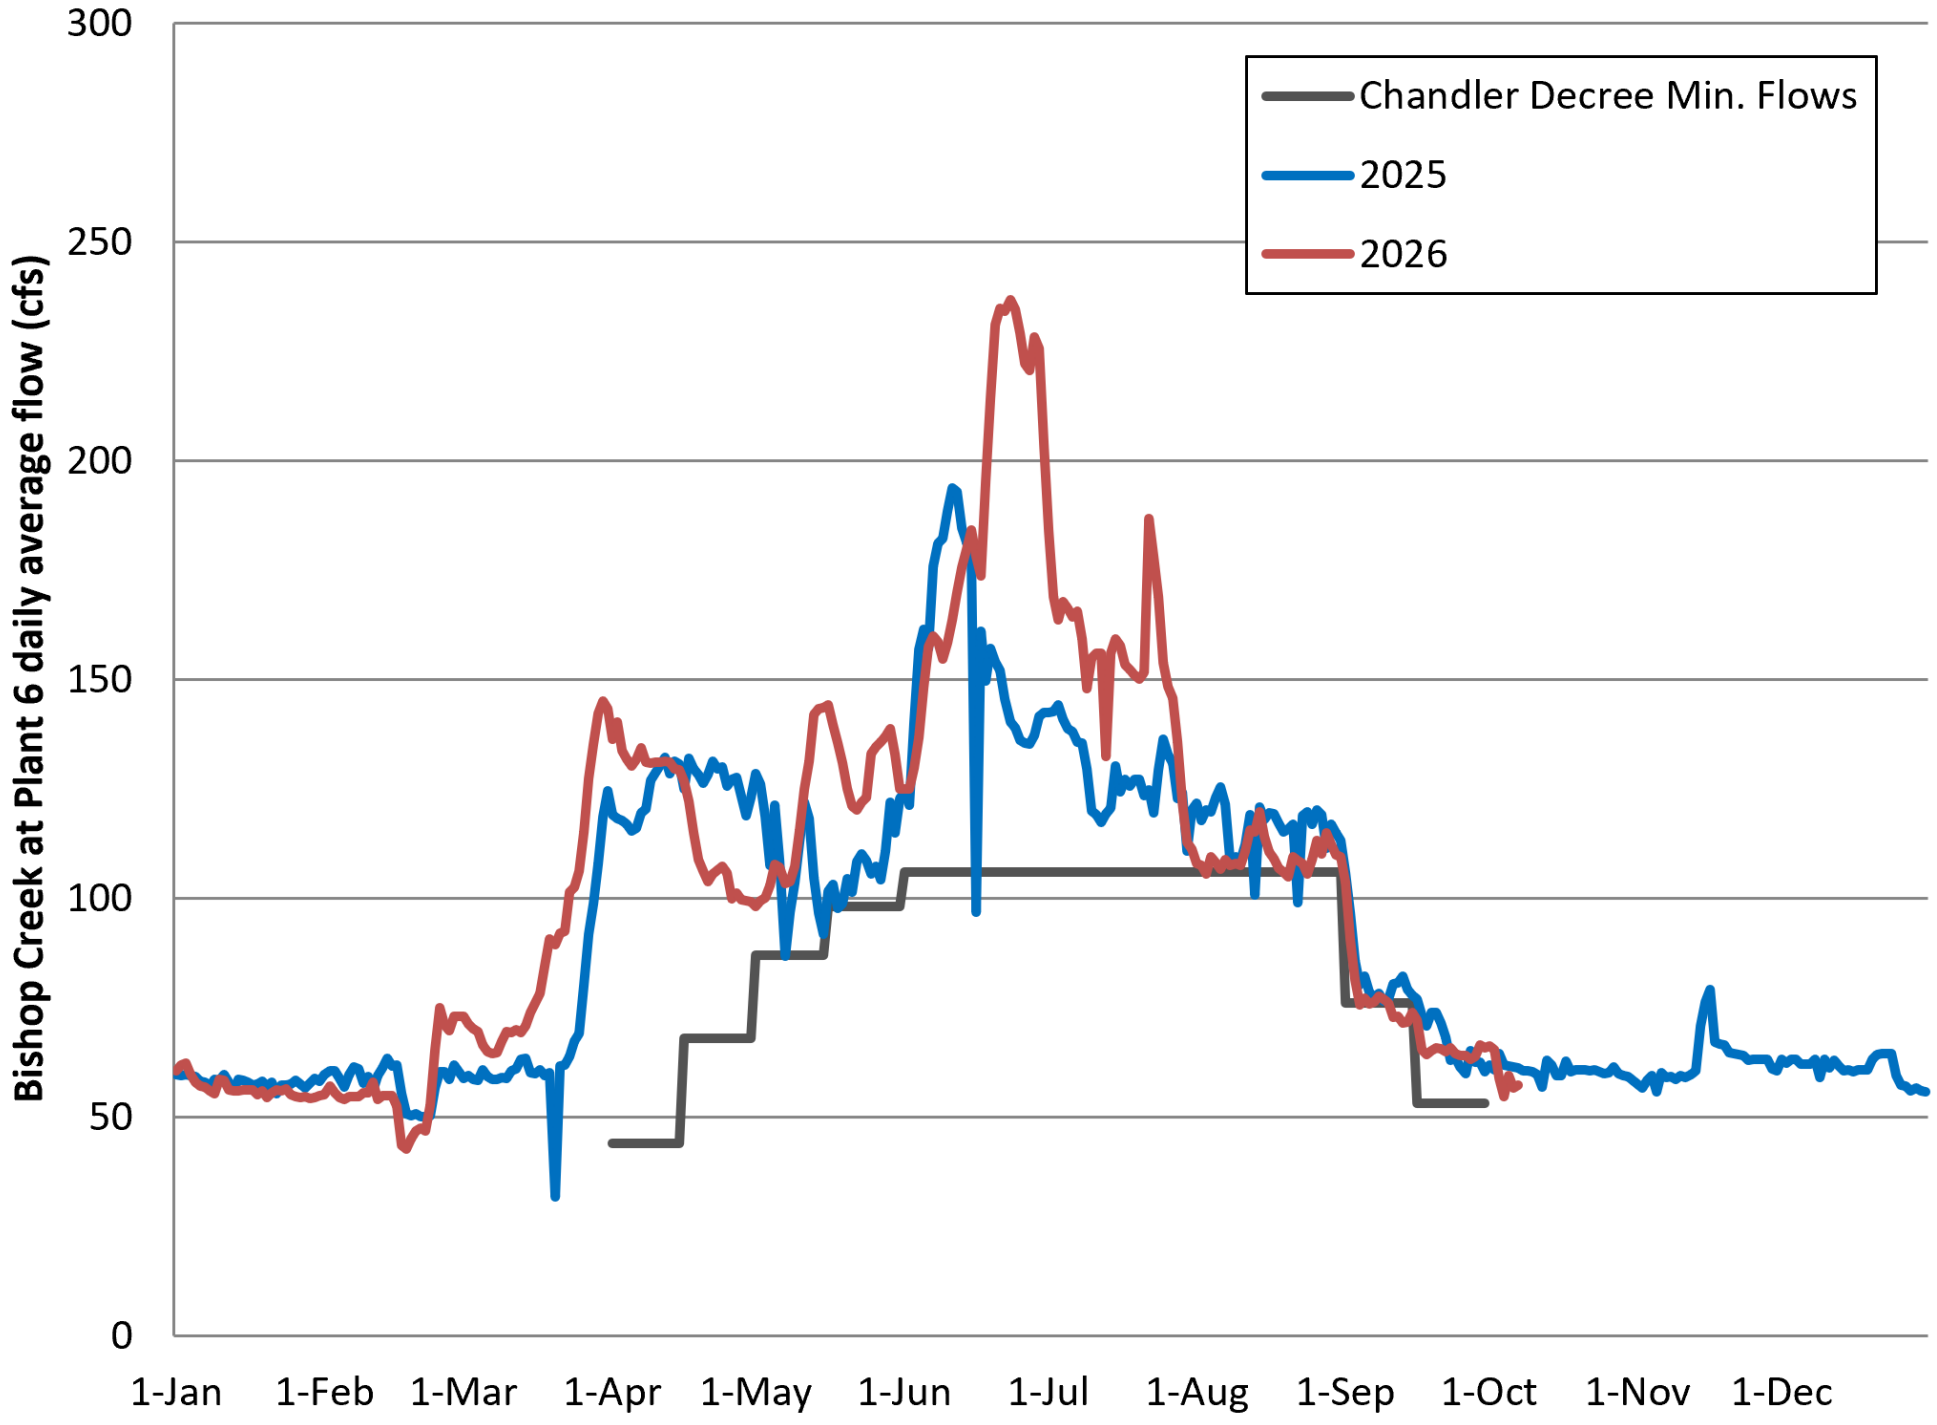

8. **Next Meetings**
   a. The next monthly Board meeting will be held on November 10, 2026, at 7:00 p.m. at the Inyo County Board of Education Facility, Lozito Conference Center (GLCC), 166 Grandview Dr., Bishop.

9. **Adjournment**
   The meeting was adjourned at 7:35 p.m.

Respectfully Submitted,

Eric Tillemans
Secretary
Bishop Creek Water Association

Bishop Creek Flows at Plant 6

Sep 19, 2026, 11:59 AM

Eric,
Thanks for the communication. Please let me know when you plan to reinstall the headgate. Thanks Gene

Good morning Gene,

Yes… we finally got the gate dislodged from it's mooring! I didn't expect it to be so difficult to deal with… I initially had a small tractor with a backhoe attachment that I tried to get it out with… to no avail… it moved about 1" and no more. Then I got a larger, more powerful mini-ex over there… moved about 2"! Had to get a small excavator over there to get it out, and it was still a struggle. We will get the gate cleaned up and repaired before we re-install it.

I spoke with Indigo to see if you had a specific location that you wanted for the gate… she said near the main stream, so that is what we are planning to do… let me know if you want more input. I don't have a firm date yet, but I would say we should have it installed by the end of October if all goes well.

Thanks,

Eric Rose

BISHOP CREEK WATER ASSOCIATION

Post Office Box 1273
Bishop, California 93515

October 1, 2026

Anne Almeida Trust
372 N. Mountain View Road
Bishop, CA 93514

Dear Anne Almeida Trust:

Bishop Creek Water Association Past Due Assessment

A letter dated January 26, 2026, was sent to you regarding your property at 372 N. Mountain View Road (Parcel Number 11-040-10), from the Bishop Creek Water Association (BCWA) explaining your membership, and the needs and legal obligations of the association (copy attached). You are annually sent a letter regarding BCWA activities and a billing(s) regarding your Bishop Creek Water Association assessment. At the beginning of May you were sent a BCWA annual report and your billing statement which included your 2026 assessment along with your past due assessment amount. The BCWA Articles and By-Laws (see BCWA website BishopCreekWater.org) call for payment of the annual assessment within 30 days of notice (Article XIV, Section 2). Also, at the beginning of July you were sent notification that your 2026 assessment was not paid within 60 days and that you would be penalized a 10% basic late payment penalty (Article XIV, Section 2). Currently, we still have not received your payment. The current balance on your account, including past due assessments, is $477.40 (attached).

The Board of Trustees of BCWA has authorized, directed and instructed its officers to pursue collection of unpaid assessments as provided for in the BCWA By-Laws. Your account now has an overdue balance as shown on the attached invoice. This letter is being sent to you to notify you that unless you pay your overdue balance within the next 30 days it will be necessary for the BCWA to initiate legal action (Article XIV, Section 2). In the recent past the BCWA took several non-paying members to Small Claims Court to recover past due assessment fees. This effort resulted in court judgments favorable to the BCWA. Settlements based on court ruling judgments consisted of the amount of past due assessments plus court fees.

To avoid further unnecessary action and costs please remit your payment by November 1, 2026 to: Bishop Creek Water Association, P.O. Box 1273, Bishop CA. If you have recently made your payment, please disregard this notice.

Sincerely,

Board of Trustees
Gene Coufal - President (760) 873-6209
Merry Armstrong (760) 920-9959
Don Kunze (760) 937-0128
Mark Frumpkin (818) 590-0554

Bishop, California 93515

January 26, 2026

Dear Bishop Creek Water Association Member,

You have annually received letters and billings regarding your Bishop Creek Water Association (BCWA) assessments. The Board of Trustees of BCWA has authorized, directed and instructed its officers to pursue collection of unpaid assessments as provided for in the BCWA By-Laws. Your account now has an overdue balance as shown on the attached invoice. This letter is being sent to you to notify you that unless you pay your overdue balance within the next 30 days it will be necessary for the BCWA to initiate an action in small claims court. In the recent past the BCWA took several non-paying members to Small Claims Court to recover pass due assessment fees. This effort resulted in court judgments favorable to the BCWA. Settlements and court ruling judgments consisted of the amount of past due assessments plus court fees.

One of the common threads in questions/issues that kept coming up in the court proceedings is "why do I have to pay?" The response to that is twofold:

1) **There is management and operations need.** The BCWA is responsible for distribution and regulating water to all association members in the Bishop area (approximately 965 members). The association is managed and operated under the guidance of Articles and By-Laws (available on the BCWA website, www.bishopcreekwater.org).

   Membership to the association is automatic by virtue of having Bishop Creek water flowing on one's property (BCWA By-Laws, Article VII, Section 2). Provisions for membership are found in Article VIII, Sections 1-3 (pages 6-7) of the By-Laws. Following is a key applicable provision:

   > *Section 2 – " Any owner of real property whose property is traversed by, borders on, or has access to any stream, canal, or ditch carrying the water of Bishop Creek, and located within the boundaries as shown on Exhibit A, shall automatically be a member of this Association and shall be entitled to the benefits and burdened by the duties imposed herein. Any question of membership shall be referred to the Arbitration Committee, shall be binding upon all parties. "*

   Management and operation of the BCWA requires the employment of a Watermaster to ensure every member receives their equitable share of water. Without a Watermaster the flow of Bishop Creek would not be equitably distributed. The Watermaster, on a regular basis, is in the field, patrolling, monitoring, adjusting flows, and cleaning debris from gates to ensure that the water keeps flowing and is distributed properly. The BCWA also pays for bookkeeping services to maintain membership records and do billing. These costs are itemized in the annual BCWA budget. The budget is approved at the BCWA annual meeting held on the last Monday of January each year. If you go to the BCWA website and look up the January 27th, 2025, meeting summary, you will find the membership approved budget for 2025. Payment of the Watermaster's salary, bookkeeping, insurance, and maintenance of an aging distribution system relies solely on the fees paid by the BCWA membership. The association, as a community entity, cannot maintain the necessary distribution facilities and

provide for equitable distribution of water unless everyone utilizing and enjoying these waters pays their assessments.

2) **There is a legal obligation.** In 1905 the BCWA was formed as an unincorporated association by the users and appropriators of the waters of Bishop Creek for use on lands located on the Bishop Cone for the purposes of protecting their rights to the waters of Bishop Creek, and to apportion said waters among the users.

   To determine the rights of users to the waters of Bishop Creek, an action was filed in the United States District Court in and for the Southern District of California, Northern Division, Case No. B-16 in Equity. On January 27, 1922, a Final Decree determining the respective rights to the waters of Bishop Creek was filed. This decree is commonly known as the *Chandler Decree.* Article IX of the *Chandler Decree* determined that the users *"at their own expense, shall pro-rate, rotate, divide, distribute the waters of Bishop Creek among themselves, and their lands, and the several ditches, supplying the same in such amounts and at such times as they see fit".* Article XI of the *Chandler Decree* made that decree binding upon the parties and *their respective successors in interest and assigns.*

   Since then, the BCWA has regulated the equitable diversion of water from the main canals to the lands of the members of its association. Association members include all owners of land described in Paragraph 1 of the Chandler Decree. The Articles and By-Laws include a map showing the area of land requiring mandatory membership. The Articles and By-Laws specifically authorize BCWA to levy assessments against its members to pay its expenses. Pursuant to this authority, BCWA has levied assessments and bills its members annually.

Hopefully this explanation answers your questions/concerns and helps you understanding the importance of each member fulfilling their obligation in order to enjoy the privilege of utilizing the waters of Bishop Creek. Paying your past due assessments will avoid the negative, time-consuming, money-wasting legal process. In fairness to the entire BCWA membership please comply and bring your account up to date.

If you have any other questions or have a specific issue regarding payment of a past due assessment, please contact me or any Board member at one of the numbers below.

Sincerely,

Eric Tillemans
